

CPD

Name: Keene Hayden

Below is an outline of the learning activities for you to claim CPD.

Name	Location/Date
Environmental Design of Green Buildings - Non domestic	Dublin Chamber of Commerce, 7 Clare Street, Dublin 2

Topics covered include key strategies for designing climate responsive green buildings.

20 November 2014

CPD Hours 8

Learning Objectives:

- Principles of envelope bioclimatic design
- Designing for daylight
- Passive solar shading
- Different approaches to natural and mixed mode ventilation
- Tools to assist in achieving better quality environment
- Integrating renewables

Recognised by

The lead presenter is Dr Aurore Julien, a sustainability expert, specialising in green design and energy, for buildings and master plans. She teaches to MSc students at University College London. She headed sustainability in the engineering consultancy Ramboll where her team developed sustainability strategies for masterplans and large building projects.

Case studies presented by Henry J Lyons Architects, ARUP, IES, and IN2 Engineering
